

Sample Data

- SME will not have to wrap hair
 - Actual data will have subject wearing a mo-cap head cap
- SME will be provided with better quality than shown
 - Sample shown is constructed with 7 cameras; actual data will be with 40 cameras
 - Actual data will be uniformly lit
- Data can be provided to SME in range of complexities (e.g. 5k vertices—50k+ vertices)
 - Sample shown is 7k vertices
- Template (tracking) mesh must be \leq 7k vertices
